

everyone profits from knowledge — especially you

We're going to make this easy. You'll make a 20% commission on sales of Viscent products just by introducing us to your clients, without ever investing a dime. And don't worry, we're not all about sales. Our mission is to educate the public about healthcare, and helping them take charge of their own wellness.

As part of fulfilling our mission, the licensed healthcare professionals at Viscent will gladly meet with your clientele and discuss key healthcare issues that concern them. We'll also introduce them to the full line of Viscent products, which, when purchased through our partnership with you, will yield a 20% commission.

Free of charge

Best of all, everything is provided at no cost to you. The healthcare seminars we offer are free, and there is no obligation for anyone to purchase anything.

Our most popular forums are listed to the right, or visit our website, viscent.com, to see other recommended topics. Have a specific request? Give us a call.

At the conclusion of our presentation, we'll answer questions and introduce a few supplements that can help your clients achieve their wellness objectives. If they like what they see, your commission is pure profit. It couldn't be any easier.

- We handle the inventory.
- We handle the billing.
- You receive a tidy profit.

When we receive payment for the products ordered through your company, we send you a check. It's our way of saying thanks.

Profitability Example

| | |
|---------------------------|--------------------------------|
| Average Order Per Person: | 3.5 Products |
| Average Family Order: | \$200.00 (based on list price) |
| Average Net Commission: | \$40.00 |

Free Wellness Passports keep medical information together.

Free lecture series from healthcare professionals

JENNIFER HALL,
RN BS, MS Certified Family
Nurse Practitioner

DR. KEVIN ELLIS,
Chairman, Chief
Medical Officer

Here are a few of the topics that we've presented to the public and published on our informative website.

- The truth about low-carb diets
- Men's top five health risks
- The latest news in menopause and hormone therapy
- Finding a primary care physician who's right for you

Our website is an excellent resource for health information.
